- **\*\*\***If you are not connecting to shoreline power (camp site hook up) then you should use the solar panel to provide additional power to trailers power supply.
- Power converter needs to be on

### Trailer Accessories:

**Leveling Legs:** (3) legs stored in black storage box. Two for back and one for the front of trailer. Crank to lift trailer after pin has been installed.

**Roof Top Tent:** \* Pops up while unfolding with Ladder

- Remove cover and store in your vehicle
- Extend Ladder out and then use to unfold the tent. It will take leverage and little muscle to get it half open. Then gravity will assist.
- Find support legs and canopy rods located in storage box ( Long black nylon bag)
  - One tent support leg goes on each corner of the tent frame
  - One tent canopy extension rod goes on each side of the tent canopy.

**\*\*\*Please note the attached canopy needs fully extended prior to clipping in the tension rods. \*\*\*Please also note the rods must be removed and the canopy extenders must be **LOWERED** for the tent to fold back for storing. Best way to store ladder is to lift from the attached side and lower each section.**

**Awning:** Unzip cover and unfold awning

- The awning legs are attached to the awning. Pop out and extend to desired height.
- The awning horizontal supports are also attached to awning base at trailer.
- All support poles turn for tension to extend and tighten at bottom half of poles.
- Store support legs & horizontal in frame & roll up the awning as straight as possible for storage.
- Zip cover completely

**Propane Grill:** \*\*\*Propane is not connected

- First extend grill out from storage compartment. Use red lever to release slider.
- Open grill lid and fold out side screens. use 4” wavy rods to hold side screens
- Remove the black propane grill hose assembly from storage drawer under the grill.
- Remove the existing propane hose (hot water heater hose) from the propane tank at tank valve
- Install grill hose to propane tank and then to grill.
- Light the grill with the fire starter in storage drawer.

**Hot Water Heater:**

- The water spray feature will work with or without the tank -less hot water heater on.
- If you want hot water make sure the hot water hose is connected to the propane tank.
- Turn on propane and then turn on water heater with switch on cabinet door.
- **The heater controls are already set to hot water!** Give it a little time to heat the water.

**Water Storage:** There is 25 gallons on-board

- Feel free to fill up as needed. There is a hose in the storage box if needed as well.
- The fill cap is located next to the propane and water heater cabinet.

**Trailer Interior Fan:**

- Open lid on fan unit using black lever on fan. \*\*\*Lid will only open an inch or two if roof top tent is on.
- Select the direction for the fan. Wind in or wind out.
- Turn power knob on. 0-3 speed
- Do not touch Blue & Red cooling knob. N/A with trailer.

**Trailer Tire Wedges:**

- Slide behind trailer wheels.

Leave it better than you found it

Enjoy it, but respect it

Make it an adventure
